- ~~6. Report on Homeless Feeding Programs~~
7. Report on Comprehensive Homeless Policy Update
8. Report from HOT Team
9. Reports from Community Representatives on Homeless Issues and Populations
10. Subcommittee Reports
11. New Business
12. Meeting Schedule - 2003
 - January 8, 2003
 - April 1, 2003
 - July 8, 2003
 - October 1, 2003
13. Adjournment

**East Village Redevelopment Homeless Advisory Committee
Neighborhood Subcommittee Recommendations on the Homeless**

Committee Actions as of May 1, 2002

- 1) *Subcommittee Recommendation:* A cap shall be placed by the city on the number of existing shelter beds in the East Village.

Committee Action (March 6, 2002): Motion to approve failed by a vote of 2-11.

- 2) *Subcommittee Recommendation:* Expand HOT team service to impacted neighboring communities (Barrio Logan, Sherman Heights, Golden Hill, North Park, Uptown/Hillcrest).

Committee Action (March 6, 2002): Agreed to by consensus.

- 3) *Subcommittee Recommendation:* Police should aggressively respond to reports of lewd acts, violence and other criminal behavior, including encampments.

Committee Action (March 6, 2002): The following revised language was approved by a vote of 12-1:

Police should aggressively respond to reports of lewd acts, violence and other criminal behavior, and the HOT Team or other appropriate agencies should respond to illegal encampments.

- 4) *Subcommittee Recommendation:* County Mental Health (CMH) shall increase support and maintain its efforts in serving the homeless population, including outreach and follow-up services with priority on the dispensing of medication.

Committee Action (March 6, 2002): The following revised language was approved by consensus:

County Mental Health (CMH) should increase support and maintain its efforts in serving the homeless population, including outreach, follow-up services, and dispensing of medication.

- 5) *Subcommittee Recommendation:* City of San Diego shall decentralize the winter program with emphasis outside of East Village and its surrounding neighborhoods.

Committee Action (May 1, 2002): The following revised language was approved by a vote of 9-0:

The City of San Diego must continue to work toward decentralizing the homeless winter

shelter program, with emphasis on moving portions of the program outside of East Village and its surrounding neighborhoods. This includes a long term strategy of looking for one or several permanent locations.

- 6) *Subcommittee Recommendation:* Expand PERT and Inebriate Programs to the neighboring communities (as noted in #2).

Committee Action (March 6, 2002): Agreed to by consensus.

- 7) *Subcommittee Recommendation:* City of San Diego and CCDC to provide written notices to neighboring communities and community groups on new and amended CUP's.

Committee Action (May 1, 2002): The following revised language was approved by a vote of 12-0:

City of San Diego and CCDC to provided expanded noticing to include affected neighboring communities and all interested community groups on discretionary land use actions, including new and amended CUPs, in East Village.

- 8) *Subcommittee Recommendation:* Ordinance or Policy shall be developed and enforced that requires all service providers and other groups/organizations that assist in feeding the homeless, shelter them.

Committee Action: SCHEDULED FOR ACTION AT JUNE 12, 2002 MEETING

- 9) *Subcommittee Recommendation:* Homeless service providers should continue providing meaningful service referrals and linkages to obtain the most comprehensive approach to counseling, advocacy, medical, employment, mental health and all other support services.

Committee Action (March 6, 2002): Agreed to by consensus.

- 10) *Subcommittee Recommendation:* No outdoor feeding sites.

Committee Action: SCHEDULED FOR ACTION AT JUNE 12, 2002 MEETING

Bill Maheu, SDPD

1. Welcome and Purpose

Ann Hix, representing the City Manager's office, explained the formation of the advisory committee was a result of mitigation measures cited in the environmental impact report prepared for the ballpark redevelopment project. The committee's charge would be to identify impacts associated with the

displacement of homeless persons upon the surrounding areas, and make recommendations to the City Manager as to its remedies.

2. Introductions

Advisory members introduced themselves and the areas, agencies or organizations they represent.

3. Current Status of Homeless Population Downtown

Sergeant Scott Bender, San Diego Police Department, explained the purpose and procedures used by the HOT Team to contact, identify, and assist homeless individuals. Since the beginning of the program, they have handled over 500 cases and currently had 20 open cases. The HOT Team has not seen an increase in the number of homeless, nor noted migration out of East Village to a particular area.

During discussion, questions were raised as to the migration of the homeless from areas outside San Diego County. It was noted that a number of homeless persons were seen on Port District property, and it was suggested that a representative from the Port be invited to participate on the committee.

4. New or Proposed Programs for Downtown Area

Winter Shelter/Vouchers. Ron Thurlow, Homeless Services Coordinator, reported the family shelter closed May 16, 2000. He stated all families were placed somewhere. He stated homeless families appeared to be on an increase.

City Works. Funded by the Centre City Development Corporation, currently 18 homeless, mentally ill persons are enrolled in the program.

Year-round Family Shelter. Ron Thurlow explained the City of San Diego was presently looking for a site to house 150 individuals (30 to 50 families).

Special Needs Homeless Program. Ann Hix distributed copies of Report to Council 99-241, dated December 1, 1999, titled "Program to Assist Special Needs Homeless Population." Ms. Hix explained the program essentially contained five parts:

1. Work with the County, CCDC, Housing Commission, and related organizations to develop a centralized intake assessment facility for this population.
2. One hundred units of transitional housing over the next two years.
3. One hundred units of permanent supportive housing.
4. Expand short- and long-term alcohol treatment by 80 beds.

5. Develop ways to expand enforcement options.

Police Western Division Homeless Serial Inebriate Program. Ms. Hix explained the pilot program involved using existing laws to address public drunkenness. She noted the large amount of funds expended on arresting the same people for public intoxication. Enrollment in treatment programs in lieu of jail is offered as an option for 3rd time offenders.

Sheriff Connections Program. This program provides support to the mentally ill offenders once they are released.

5. Committee Concerns and Issues Regarding Downtown Homeless

The following were raised by individual committee members, reflecting different perspectives:

- Domestic violence population
 - Competition with public agencies over private sources of funding
 - Committee should be solution oriented
 - Ask Council to put a cap on social service agencies in area
 - No food lines
-
- If providers feed the homeless, they should house and counsel them as well
 - Programs such as free food encourage people to migrate to San Diego
 - Loitering of homeless near liquor store at 16th and J Streets
 - Charge of committee to suggest mitigation measures to Council, not to solve the homeless problem.
 - Committee's wide variety of viewpoints will make it difficult to form any form of consensus
 - Not a "Padre" problem, but the result of low-income, affordable housing being lost as a result of downtown redevelopment
 - Construction activity will cause migration of homeless to surrounding areas
 - Committee should carefully monitor migration, where it occurs, and develop concrete recommendations to that specific problem
 - Committee should develop facts, identify problems, and work toward solutions
 - Create a concentrated area where all the providers are located or disburse providers city-wide

6. Committee Operating Procedures and Selection of Chair and Vice Chair

It was moved, seconded, and passed with one negative vote to appoint two Co Chairs for the committee.

It was moved, seconded, and passed unanimously to appoint David Siegler and Caryl Iseman as Co Chairs.

7. Meeting Schedule

It was agreed the committee would meet the first Wednesday of the month from 3:00 to 5:00 p.m. The next two meetings, however, would be held May 31, 2000, and June 21, 2000, in order to get things moving.

Location of Meetings. Staff will inquire as to the availability of Conference Room 1, World Trade Center for the meetings. Father Carroll offered the conference room at St. Vincent de Paul Village for the committee meetings.

A schedule of future meetings and meeting locations will be provided at or prior to the next committee meeting.

The meeting adjourned at 5:00 p.m.

BALBOA PARK LANDSCAPE MAINTENANCE & CONSTRUCTION:

Maintenance throughout the park continues.

ONGOING CONSTRUCTION:

The Museum of Art and Museum of Man ornamentation projects have begun. Scaffolding has been erected at both locations. Anticipated project completion is May 2008.

Scaffolding at the California Tower is scheduled for the first two weeks in September. Work will also begin at the Casa del Prado toward the end of September.

Work crews will be repairing the Museum of Man bridge September 10 – 14. El Prado/Cabrillo Bridge will be closed to vehicles from the Plaza de Panama to Balboa Drive during construction.

~~in Presidio Park, the Inspiration Point area is closed to vehicular access until further notice due to~~
unstable soil along the entrance roadway. (Note to Permit Center: The wedding site at Inspiration Point is only accessible by those willing to walk via a trail).

UPCOMING PROJECTS:

Hall of Nations foundation retrofit . . . funding pending, date TBA.

San Diego Mayor Jerry Sanders
Members of the City Council

RE: Emergency Homeless Shelter Project & Barrio Logan

As a forty five year resident of the city of San Diego, retired San Diego State University administrator and College Heights property owner, I am appalled and angered that once again you are considering Barrio Logan as the dumping ground for the city. Barrio Logan is a community that has fought long and hard to have a pollution free and safe environment for its residents.

Your plan to place an Emergency Homeless Shelter Project during the winter season goes contrary to all of the work, sweat and tears that have gone into making Barrio Logan a decent place to live. The residents have a long way to go to accomplish their goal of building a safe and clean community and this Emergency Homeless Shelter proposal is not in their favor and against its long term interest.

I volunteer my time to conducting walking tours at Chicano Park for high school students and persons, the majority professional people, who come to San Diego on vacation and want to know the history and see the world known murals of the park. I love doing this because of my personal history with the park and Barrio Logan. Unfortunately, I tend to despair taking folks on the tours because over the last few years I have subjected them to seeing homeless people urinating in the bushes, feces on the grass, drunks sleeping by the benches and behavior that is anti-social. I don't see this in the vast majority of parks in the city.

Please don't ask or force the residents of Barrio Logan to accept the placement of the Emergency Homeless Shelter Project in their vicinity. It is not right and grossly unfair to continue a perpetual onslaught and insult on this community. I salute the Barrio Logan community for standing up for what is right. VOTE NO!!!

Sincerely

Gus Chavez

Re: Our support in favor of San Diego Rescue Missions' proposal
 Relocation to Harbor View Medical Facility site (First & Elm)

Each organization's practices and direction is only as good as it's leadership. Jim Jackson has demonstrated extraordinary cooperation as a neighbor under very stressful circumstances faced by the San Diego Rescue Mission (Mission). Here in Barrio Logan Jim has worked with Barrio Station and the Barrio Logan Redevelopment Project Area Committee to remedy problems that he inherited as the incoming President and CEO of the Mission.

Downtown redevelopment has caused the shut down of a Mission project that cannot be accommodated in the Missions' Barrio Logan site due to its' CUP that is exclusively for a women and children shelter. Jims' big heart would have these displaced men served at the Barrio Logan site but when the community asked for dialogue over the conditions of the CUP he did the right thing. Jim got to work on resource development in order to provide comprehensive homeless services under one roof in a facility that will successfully accommodate all their client's needs. He looked for a site that would not require public area outdoor lines of any sort.

We further support the proposed relocation plan because of Jims' willingness and courage to spread the services around geographically to help ease the already over burdened East Village and Barrio Logan communities in terms of hosting the overwhelmingly greatest share of the City's homeless service providers and their clients.

The proposed new site is well designed to accommodate the variety of services that the Mission will provide including social services to help constituents reach their goals including returning to the work, obtaining health insurance and permanent housing.

I understand the fears of the community. Barrio Logan has experienced its' share of inequities in the distribution of CUPs for homeless services. But the current proposed site is well equipped to serve and house the Missions' programs and services. This is a major consideration that the Uptown community should weigh during this important time of redevelopment. We wish that more homeless service providers were as considerate and responsive as Jim Jackson and the San Diego Rescue Mission.

I ask you to vote in favor of the proposed relocation of the San Diego Rescue Mission and help Jim Jackson prove that the decentralization of homeless services to adequate facilities benefits everyone. The Mission will serve the existing and growing number of needy clients that exist in the Uptown area. These clients will receive quality services and move along to a new and better life.

Feel free to call me regarding my recommendation in favor of the agenda item. I can be reached at the number above. I will try to be in attendance to testify in person. Please take my letter as my testimony in the event that I cannot get away from my workload. Thank you for your kind consideration of my support.

In Partnership with:

City of San Diego • United Way of San Diego • County of San Diego • The Private Sector

Barrio Logan and Guadalupe Area "Community Convention" Resolution

Whereas the communities of Barrio Logan and Guadalupe Area of the most Westerly portion of Logan Heights have come together and resolved that the City of San Diego shall be petitioned for the purpose of acknowledging our sufferance and our grievances over the inhumane neglect by the City of San Diego of our communities through virtually turning their heads to the out of control impact that the homeless population has had on our communities. The City further increases resources for the homeless industry located in East Village while it fails to provide relief for the residents of our communities.

Whereas an overwhelming unfair number of Homeless Service Providers have been placed in East Village along with an undetermined number of beds, shelters, conditional use permits (CUP), and; whereas the public right of ways are used for feeding lines and staging lines for services for the homeless population. Services in East Village range from emergency and over night beds for homeless individuals who are found drunk in public, participate in illegal encampments, disturb the peace and more. Other services include temporary shelters while others provide food and prayer and then release their clients to the streets. The vast majority of the homeless population on the streets are suffering from mental health problems ranging from addictions to mental illness oftentimes involving behavior such as open defecation, violence, open prostitution and other lewd acts, drunkenness, illegal encampments at Chicano Park and Cesar E. Chavez Bayfront Park (formerly Crosby Park) including the use of our park rest rooms for bathing, sex, drug use and transactions. Our yards, streets, alleys and business properties are being used for loitering..

We therefore petition the City of San Diego to place high priority on this Resolution and act swiftly to help alleviate the suffering and social injustices that have been forced on our communities by former City Council action and further be resourceful in remedying our grief and poor quality of life as a result of the homeless populations encroachment onto Barrio Logan and Guadalupe Areas of Logan Heights.

We petition the City of San Diego to act on the following:

1. Recognize that the Downtown Redevelopment Environmental Impact Review (EIR) identified two mitigated issues around the homeless 1) the displacement of the homeless population and 2) their impact on the neighboring communities.
2. The City has provided numerous resources for the displaced homeless population
3. The City has failed to provide resources for relief to the neighboring communities that are plagued with the impacts of the homeless population.
4. The City must provide a Homeless Outreach Team (HOT Team) for Barrio Logan and Guadalupe Area.
5. The City must request County funding for an additional Clinician for the herein petitioned Logan Heights HOT Team.
6. The City must request County funding for free beds for older addicts of the homeless population.
7. Prohibit the use of the public right of way for feeding and staging lines through an ordinance.
8. Place a cap on the existing number of beds in East Village.
9. Place a cap on the existing number of CUPs in East Village.
10. Phase out all existing number of beds and CUPs as homeless service providers are displaced by redevelopment. (do not increase the number of beds of other existing providers).
11. Do not relocate displaced service providers into our communities.
12. No expansion of current homeless services in East Village.
13. Provide notice to neighboring communities of requests for new or amended CUPs in East Village.
14. At the very least place a moratorium on the existing beds and CUPs in East Village until our communities are afforded the public and legal benefits of due process.
15. The County and all incorporated cities should develop a long range plan to serve their respective homeless populations and cease making procedural referrals to City of San Diego located service agencies and further provide travel bus passes for the homeless wishing to return home or relocate.

We therefore resolve on this 5th day of December 5, 2002 that the residents of Barrio Logan and Guadalupe Area of Logan Heights have spoken and want justice in a swift and just manner. We have been good neighbors and demand the same in return from the East Village homeless industry. We commend the new San Diego City Council for the courage that you have demonstrated in supporting the San Diego Rescue Mission's relocation away from the East Village area in the midst of great controversy.

PRESIDENT

7 March 1996

Honorable Ron Roberts, Chairman
Board of Supervisors
County Administration Center
1600 Pacific Highway, Room 335
San Diego, CA 92101-2470

Dear Mr. Chairman:

The Padres Unidos del Barrio (P.U.B.) write to formally thank you and your fellow board members for your Tuesday 3/5/96 decision on the county-wide distribution of welfare warrants for recipients of Aid to Families with Dependent Children (AFDC).

P.U.B. is an advocacy group that has fought very hard to keep crime down in the community of Logan Heights and neighboring areas. We feel that distributing welfare warrants via check cashing outlets would have undoubtedly given rise to crime and would have made women and children obvious targets of crime. This would have been counter-productive to the good intentions of your board, and to the hard work that P.U.B. has done in our community.

We applaud your leadership and your vision for a better and safer San Diego. Thank you for helping us and encouraging us to continue with our work of improving our community.

Sincerely,

Rachael Ortiz

PETITION AGAINST THE WINTER 2007 PLACEMENT OF THE ANNUAL TEMPORARY
HOMELESS SHELTER THAT IS ADJACENT TO BARRIO LOGAN

TO: Mayor Jerry Sanders, San Diego City Council, Centre City Development Corporation, San Diego
Housing Commission, County of San Diego Board of Supervisors and United Way of San Diego County

FROM: Residents, businesspersons, workers, students, community based organizations and property
owners from Barrio Logan

We, the undersigned, ARE AGAINST the continued placement of the annual temporary winter homeless shelter at the
1500 block of Newton Avenue. For too long, this temporary project has been put right next to Barrio Logan without
regard or respect for our community. People who live, work, study and do business in Barrio Logan are fed up!!!!

The City of San Diego irresponsibly calls the temporary shelter an "emergency project" to evade the California
Environmental Quality Act. This law normally requires an environmental review for this type of project unless it is
declared as an "emergency". In fact, this project has been in the City's budget for at least a decade.

This shelter is unhealthy for the street people it purports to help because it is next to a vacant lot with contaminated soils.
In addition, testimony before the City Council in June of 2007 proved that this project attracts homeless people county-
wide and from out of state who were recently released from prison or are suffering from drug and alcohol addiction. The
result is that we are being used as a "dumping ground" for the county-wide and downtown San Diego homeless problems.

This shelter will house and attract more street people with criminal backgrounds and mental health and substance abuse
problems in close proximity to Perkins Elementary School (2 blocks away), MAAC Head Start Program (4 blocks away),
Barrio Child Development Center (5 blocks away), the Paradise Senior Citizen Center (4 blocks away) and the Barrio
Youth Center (5 blocks away).

Other problems for the Barrio community include: 1) Illegal homeless encampments on streets, alleys, sidewalks and
unlighted areas, 2) unregulated defecation, urination, increased trash and drug and alcohol abuse in the open, 3) an
invasion by street people of parks, patios and door entrances, 4) fights, arguments, vandalism and other conflicts among
and with chronic street people, 5) increased crime and lawlessness and the overburdening of police time and resources,
6) lewd public behavior, including prostitution and 7) general degradation of the Barrio Logan community.

Already, Chicano Park is being called "Caca Park" because of the homeless problem. For instance, the public restrooms
are filthy and unusable due to overflowing toilettes, sexual activity, drug use and violence.

We demand the following from Mayor Sanders, the San Diego City Council, Housing Commission, Centre City
Development Corporation and United Way of San Diego: 1) that the winter homeless shelter not be placed in Barrio
Logan, 2) that the considerable resources of these entities be used to find another location, and 3) that this project not be
declared an "emergency" to circumvent environmental review under the California Environmental Quality Act.

Residents seek relief from influx of homeless

Homeless men sat in Cesar E. Chavez Park yesterday near shopping carts loaded with possessions. Residents of Barrio Logan and Logan Heights who attended a forum on homeless problems yesterday demanded that the city clean up the area. *Dan Trevan / Union-Tribune*

By Ronald W. Powell
STAFF WRITER

Barrio Logan and Logan Heights residents are demanding relief from the homeless problems that have invaded their neighborhoods.

The discarded needles. The used condoms. The public sex and defecation. The public drunkenness and trash. All are reminders of an eroding sense of safety for themselves and their children, the residents said yesterday at a forum held at the Barrio Station social services agency.

Many of the troublemakers are homeless men forced from the East Village into the neighborhoods east of downtown by construction of the Padres ballpark.

"This is not fair for people who live here and pay taxes," said Vivian Toscano, who lives near Our Lady of Guadalupe Catholic Church in

Logan Heights. "Enough is enough. We can't do it anymore."

San Diego police Chief David Bejarano and representatives of local elected officials listened for two hours to the frustrated mothers and fathers. The meeting drew about 100 people and included approval of a resolution calling for City Council action.

In an interview, Bejarano said he understands the strong emotions of people in the working-class, family-oriented communities.

"This is a great start. We need community involvement," Bejarano said. "The community can be part of the solution."

He said he plans to shift additional police officers to patrol Chicano Park and Cesar E. Chavez Park, where illicit activity has been reported.

CONTINUED FROM PAGE B1

Resolution calls for City Council to take action

The downtown Homeless Outreach Team, a collaboration of police officers, a county social worker and a county psychiatric clinician, also will help, Bejarano said. The team seeks out homeless people and strives to connect them with appropriate services.

Currently, there are two outreach teams — one downtown and another in the beach areas — and Bejarano said he would like to have a third team to serve Barrio Logan and Logan Heights. But tight city and county budgets might not allow it, he said.

Rachael Ortiz, a longtime community activist and execu-

tive director of Barrio Station, said residents believe homeless people should be shown mercy and compassion.

Ortiz said she drafted a resolution on the homeless-related problems to alert the City Council that action is needed. The resolution includes a request for a new Homeless Outreach Team and a ban on additional homeless shelter beds in the East Village.

In a phone interview yesterday, City Councilman Ralph Inzunza Jr., who represents Barrio Logan and Logan Heights, said he supports a cap on new shelter beds because the East Village is saturated with homeless services.

He said police and fire stations, libraries and parks are dispersed throughout the city. "Why not disperse homeless services throughout the city?" he said.

Several residents said they are afraid to leave their homes after dark.

Lupe Torres, who works with the Latino Youth Soccer League, said the bathrooms at Cesar E. Chavez Park are unsafe. While preparing the field there for a youth soccer game, Torres said, she found two street people having sex in the park bathroom.

"We need answers, not promises," Torres said.

Several blocks away from the forum, Huxton Lee Berry shared a 40-ounce beer with two other homeless men at a picnic table at Chavez Park. Berry said he is a carpenter who is out of work because of a disability. He said he understands the complaints of community residents, but said affordable housing is needed to get him and other homeless people off the street.

"In California, they don't pay you livable wages, so you wind up in the streets," Berry said. "Then you become prime bait for the cops. I'm mad. Tell the council people I need help."

Residents of Logan Heights call for eviction of county welfare office

By KATHRYN BALINT
Staff Writer

More than 200 Logan Heights residents last night called for the county welfare office in their neighborhood to go the way of Tony's Liquor Store.

The residents appeared at a public meeting at Sherman Elementary School to extract a promise from county officials to find another site for handing out welfare checks.

The Logan Heights Welfare Office is at 25th Street and Imperial Avenue, regarded by many as one of the worst street corners in San Diego.

Residents successfully ousted Tony's Liquor Store from the intersection last month, saying that it attracted a bad element to the neighborhood. Now they say they want to see the welfare office go, as well, because it draws thousands of indigent people into the neighborhood every month.

Cecil Steppe, director of social services for the county, said he is looking for a new site for the welfare office. Any decisions on moving the welfare office, however, ultimately rests with the County Board of Supervisors.

In the meantime, he said he made changes last month that, by his estimates, will cut down on the number of people visiting the Logan Heights office.

One of the residents' biggest complaints is that the Logan Heights Welfare Office has an undue burden of general-relief cases — about 60 percent of the 4,874 general-relief cases in the county. Some of the other county's welfare offices — such as those in Escondido, Kearny Mesa, Lemon Grove and Mission Valley — hand out no general-relief checks, complained Edgardo Reynoso, a worker for Barrio Station, a social service organization in the neighborhood.

Gloria Padilla, a Logan Heights resident and parent, said the welfare office attracts "undesirables and homeless" that she fears will one day hurt children who are waiting at the nearby bus stop.

City Councilman Juan Vargas said he is on the residents' side even though he has no authority to move the welfare office. "We have to force the situation to get them to move," he said. "What we have to do is fight."

County Supervisor Brian Bilbray pledged to try to persuade his colleagues on the Board of Supervisors to relocate the welfare office.

At one point, about a year ago, the county staff had considered rebuilding the dilapidated Logan Heights Welfare Office. After an outcry from residents, however, Steppe said he has forgone the plans to rebuild.

Welfare office may be moved

Supervisors to consider putting Logan Heights unit downtown

By RUTH L. MCKINNIE and BOB ROWLAND
Staff Writers

County supervisors, reacting to Logan Heights residents long angered by the constant flow of homeless men and women into the county welfare office at 25th Street and Imperial Avenue, are considering moving the office downtown.

On the recommendation of Supervisor Brian Bilbray, who represents Logan Heights, the supervisors unanimously agreed yesterday to look into moving the office to county-leased space at 12th Street and Imperial Avenue or one of two vacant bank buildings on Broadway.

And in the East County, there was celebration of a sort in El Cajon and neighboring Santee as word spread that a move to expand welfare services in the East County is officially dead.

After nearly a year of false starts, the Board of Supervisors voted to halt a search for additional office space to house the county Department of Social Services. The board also dropped a controversial proposal to expand the hours of operation at the El Cajon welfare office.

The Logan Heights office distributes monthly general relief welfare checks to more than half of the 4,800 able-bodied men and women who qualify for the program.

Residents living near the office complain that welfare recipients collect their checks and then remain in the area to buy and sell drugs, drink and disrupt the neighborhood. Earlier this month, the residents mounted a protest at the office, demanding that it be

Welfare

East County expansion killed by county board

Continued from B-1

closed or at least that general relief cases be more equitably dispersed among the county's 10 district offices.

The possible relocation was welcomed by residents and activists in Logan Heights, but some said it is too early to get their hopes up. The proposal is certain to create a stir downtown, where business owners and residents complain of their own problems with the homeless.

"We've been deceived so many times before," said Rachel Ortiz of the Barrio Station youth agency in Logan Heights. "We're going to wait and see what happens to this . . . We've hear a lot of rhetoric."

Said Rose Miller, who was raised in Logan Heights and owns property there: "Close the office and relocate it. Consolidating so many single men with drug problems and alcohol problems is just impossible."

In making his recommendation, Bilbray directed that Department of Social Services staff return in one month with information about moving the office to the three loca-

tions he proposed or any other appropriate locale.

The locations suggested by Bilbray are in the Trolley Towers building, where social services administrative offices are located; the vacant Great Western Bank building at 707 Broadway; and the vacant Home Fed Bank building at 625 Broadway.

Last week, the supervisors approved a program requiring that general relief recipients submit to drug tests to qualify for welfare. Those found with illegal drugs in their systems would lose their benefits.

Meanwhile, East County Supervisor Dianne Jacob hailed the East County moves as "great news for all the residents of East County."

"There is change occurring in the way we operate the welfare system," Jacob said.

"The time has come to maximize the services we have and stop increasing the number of offices and welfare workers. This is just the first step."

The board's dual decision marks a victory for El Cajon residents who took a vocal stand against the expanded-hours concept. On Sept. 20, more than 200 people filled the El Cajon City Council chamber to castigate the plan.

After that raucous session, the council formally protested the extension in a letter to the supervisors.

The El Cajon office operates from 7 a.m. to 5 p.m. Alternative schedules were considered as a way to ease overcrowding there.

Betty Heilman was among 250 El Cajon residents who signed petitions opposing the extended workday at the office, which is in a residential area near South First Street and Lexington Avenue.

Heilman said yesterday that the board's decision sends a mixed signal to El Cajon.

"Knowing that the office hours won't be extended comes as quite a relief," she said. "But the fact that they've stopped the search for a new site tells me that Santee won. It also tells me that El Cajon is still first on their list when it comes to facilities that no one else wants."

The now-scuttled plans for a new welfare office in Santee sparked resentment and organized opposition there. On June 22, the Santee City Council voted against the proposed "family services center" in the Woodside Business Park, saying the facility would violate the community's general plan.

Santee Councilman Hal Ryan was at the forefront of that fight.

"I think the people of Santee are much better off as a result of the board's decision," Ryan said yesterday.

"The element that comes with a welfare office is of no benefit whatsoever to a community. In fact, it's a detriment."

Plan to relocate Logan Heights welfare office downtown gains

By MARK ARNER, Staff Writer

A controversial plan to move a county welfare office from Logan Heights into a prominent downtown building has crossed a major hurdle by netting solid support from the Metropolitan Transit Development Board.

The transit board's 10-0 vote yesterday is significant because the building is its headquarters: the 10-story James R. Mills Building at 1255 Imperial Ave.

The move into the building's fourth and fifth floors will likely not occur until 1996, because it still requires a conditional-use permit from the city of San Diego. County social service workers say it would have a waiting area for up to 100 people and could serve up to 50 clients hourly from 7 a.m. to 7 p.m. Mondays through Saturdays.

Abstaining from the vote yesterday were four transit board directors who also serve on the San Diego City Council: George Stevens, Juan Vargas, Harry Mathis and Valerie Stallings. They were advised not to vote to avoid tainting future decisions they may make on the proposed city permit.

The decision was made despite opposition from Leslie Wade, a spokeswoman for 70 property and business owners in Centre City East. She said it was unfair to move the office into the 300-acre area be-

cause it already has several social service programs: a rescue mission and halfway houses for alcohol and drug programs. The area has about 3,000 residents and is bounded by 6th Avenue, Interstate 5, City College and Imperial Avenue.

"What's really going to happen," Wade said, "is people will come here to apply for general (welfare) relief and will end up loitering for hours, days or weeks within a few blocks of the building."

"It wreaks havoc on the businesses and residents to try to work here every day . . . It's been proven in San Diego and elsewhere that concentrating misery by creating large-scale public housing centers, homeless centers or large welfare offices is not the solution."

Wade's group and the Downtown San Diego Partnership had urged the county to open two to three small welfare centers near the homes of most welfare recipients.

Transit board member Ron Roberts said the new office would be "quite different" from the Logan Heights site. The county staff has proposed using security guards to discourage loitering.

Within a year, supervisors intend to move the welfare office now at 25th Street and Imperial Avenue. Neighborhood residents had pushed for several years to have the office relocated.

Community needs help of county, not burden

By PETER Q. DAVIS

I am greatly disappointed with recent actions of the county Board of Supervisors to relocate a recognized nuisance into downtown's Centre City East neighborhood.

The county is looking to lease office space for a welfare office to replace the one in Barrio Logan at 25th and Imperial Avenue where residents have long complained of the barrage of homeless visitors, constant drug-dealing, public drunkenness and other unseemly behavior.

Centre City East is a district within downtown's redevelopment area. This planned residential community is trying very hard to become a safe and pleasant place to live, shop, work and attend sports and entertainment events. Many structures show the signs of years of neglect, and the area includes a high concentration of emergency meal and shelter facilities.

Residents, business people and social service providers have worked with CCDC diligently for two years to fashion the Centre City East Focus Plan and the Social Issues Strategy, both approved by the San Diego City Council.

These documents outline how to abate existing problems of crime, deteriorating and under-used structures, transient habitation, an abundance of social service providers, public nuisance and security lack.

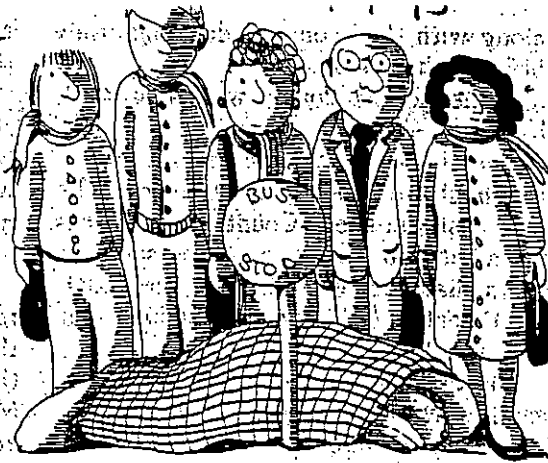

The county's plan is in direct violation of the philosophy behind these documents.

Mayor Susan Golding included both Centre City East and Barrio Logan in her Livable Neighborhoods Initiative which targets seven communities — San Ysidro, City Heights, Mountain View, Barrio Logan, Centre City East, Linda Vista and Mira Mesa.

This program is aimed at finding ways to prevent urban decay and revitalize our communities. It is designed to produce neighborhoods that feel safe, have opportunities for learning and working and include services which enhance the community. To attain these objectives, partnerships are being developed among community members, city departments and other agencies including the county.

The county's proposal runs counter to all of these objectives. The Department of Social Services has not been a good neighbor in Barrio Logan nor has it demonstrated that it could become one in Centre City East. Both areas need continued partnerships with local government to improve conditions. Shifting problems from one side of I-5 to the other is not the solution.

CCDC is coordinating efforts to miti-

MARGARET SCOTT

gate problems in Centre City East and create additional residential units, plus job and business opportunities. We are providing for needs within the area such as parks and open space, street lighting and other public improvements. In addition, we are working to reduce the number of social service providers located there, as well as to encourage 24-hour services at those sites which remain.

There is obviously a problem with the operation under way at the welfare office at 25th and Imperial. The people in the neighborhood, for good reason, are angry.

Why not address the known issues and make modifications prior to any relocation? This is not only the appropriate action, it is the existing policy of the city.

During the lengthy public hearing prior to the adoption of the focus plan and issues strategy, council members whose districts do not involve downtown stated that once social-service providers changed their approach and became good neighbors in existing locations, then they would be welcomed in other council districts.

It would seem logical that the same philosophy and approach would better serve the county's needs.

The county has been a strong supporter of downtown's redevelopment. It worked with CCDC on several projects, including the new courthouse under construction (for which CCDC will contribute over \$30 million). CCDC has supported the county's need for a new jail in downtown and discussed relocation of county administrative services into a downtown government network of buildings being planned.

CCDC truly appreciates the strong partnership developed. Unfortunately, that makes it all the more difficult to understand why the county would knowingly increase our burden in Centre City East.

I would like to see a proposal for discussion which corrects existing concerns prior to any relocation. The lines of welfare recipients which congregate at the site to receive checks need to be eliminated, as well as other problems created by those served by the office. Maybe this could occur by making welfare dispersals by mail or through some sort of ATM system.

I hope that the county will rethink its current direction and work more closely with CCDC prior to any further consideration of relocating the welfare office.

Centre City East already experiences enough social ills.

DAVIS is president of the Centre City Development Com. Board of Directors.
